Adaa's Story

The Remarkable Life
of a Rescued Sea Otter

Rachel J.E. Sprague

Read the book that inspired these activities
and discover the story of a sea otter named Adaa.

A story of
kindness.

Adaa's Story—The Remarkable Life of a Rescued Sea Otter by Rachel J.E. Sprague tells the story of a four-month-old sea otter pup who was found lost and alone in Port Heiden, Alaska, in January of 2000. He was rescued by a wildlife response team and eventually found a home at the Seattle Aquarium. There he became a beloved ambassador for sea otter awareness and conservation.

Do you know what these spiky looking things are?

- They are called sea urchins.
- Watch out! They sting if you touch them!
- But sea otters can eat them, and this helps protect the kelp forests from being gobbled up by the very hungry sea urchins.

Fun Facts About Sea Otters:

- Sea otters use rocks as tools to help them crack open hard-shelled food... and they often store their rock in their armpit.
- Sea otters can hold their breath underwater for 5 minutes, and they can dive as deep as 300 feet.
- Sea otters have the densest fur of any animal, with up to one million hairs per square inch! Their hair is so thick that even though they spend most of their time in the water, their skin stays warm and dry.
